

Cholesterol CarePathway™ – What to expect

Your at home health plan to combat high cholesterol levels

This timeline shows what you can expect as part of the LetsGetChecked Cholesterol CarePathway™.

1

Talk to our clinical team

If you meet the criteria for our Cholesterol CarePathway™, a nurse will call you to discuss your test results and treatment options. Persons aged between 40–75 years with an LDL cholesterol between 130–189 mg/dL and an ASCVD score >7.5% may be eligible.

2

Opt in

To opt-in you will need to provide a blood pressure reading taken within the last 6 months and a list of your medication. You will be sent a link to complete sign-up. To complete this step you will need valid identification. The cost for this program is **\$39 per month**.

3

Receive your medication

A 3 month supply of medication will be sent directly to your door.

4

Take a cholesterol test

9 weeks later, you will repeat a cholesterol test, at no additional cost to you to monitor your progress.

5

Receive your medication

If the medication is working as expected and helping to improve your health, you will receive a new supply of medication every 3 months*. You will need to check your cholesterol levels every year.

6

Retest

We will send you a test at no extra cost and the results help our clinical experts ensure you are getting long term benefits from treatment.

Our clinical team are here to support you on your journey to improve your heart health.

Your health is our priority, so we will check in with you along the way to offer you personalised support. You can reach out to our dedicated clinical team at any time. If you would like to receive your treatment from LetsGetChecked, please call **+1 877-870-2116**.

As your safety is our priority at all times, our clinical team will need to find out a little more about you and your medical history before joining this CarePathway™. There are a number of factors including some medical conditions that may make you unsuitable for treatment with us. Our clinical team can walk you through this process and will determine if you qualify. If you haven't spoken to our team already, you can call **+1 877-870-2116**.

*In some cases, more frequent testing or referral to external healthcare supports may be required.
